ONE DAY SUMMER ACTIVITY PROGRAM BY SPOKEN TUTORIAL IIT BOMBAY.

Graphic Era Hill University's school of computing organised one day summer activity program by IIT Bombay on 13th May 2017.In this program students presented various projects developed by different Free Open Source Software's (FOSS) which were offered under the spoken tutorial. Students from BCA, BSc IT, MCA, CS and IT presented their projects on tools like Blender , GIMP, Libre writer etc .Students have enrolled and accessed to various videos available with the courses. Gehu students also utilized the FOSS club which was opened last year. .During the event, the HOD of School of computing shared his views on how spoken tutorials have benefitted the students since 2014.The main objective of this summer activity was to motivate and to showcase the hidden skills in students. And also this activity promotes Free Open Source Software at the GEHU campus. A presentation on the importance of open source software and the role of spoken tutorial was given by Ms. Anupriya, Assistant Professor of school of computing .During this session various faculty members from school of computing were also present to encourage students.
