

Assembly Programming through Arduino

Spoken Tutorial Project

<http://spoken-tutorial.org>

National Mission on Education through ICT

<http://sakshat.ac.in>

Spoken Tutorial & FOSSEE Team
IIT Bombay

8 January 2018

Learning Objectives

Learning Objectives

- **Interface a Seven Segment Display to Arduino board**

Learning Objectives

- **Interface a Seven Segment Display to Arduino board**
- **Write an assembly program to display a digit on Seven Segment Display**

Learning Objectives

- **Interface a Seven Segment Display to Arduino board**
- **Write an assembly program to display a digit on Seven Segment Display**
- **Display a digit on the Seven Segment Display using 7447 IC**

Pre-requisites

Pre-requisites

To follow this tutorial, you should have basic knowledge of:

Pre-requisites

To follow this tutorial, you should have basic knowledge of:

- **Electronics**

Pre-requisites

To follow this tutorial, you should have basic knowledge of:

- Electronics
- Assembly language

Pre-requisites

Pre-requisites

Refer to the **Additional reading material** link of this tutorial to know more about:

Pre-requisites

Refer to the **Additional reading material** link of this tutorial to know more about:

- **Arduino - Assembly code reference**

Pre-requisites

Refer to the **Additional reading material** link of this tutorial to know more about:

- **Arduino - Assembly code reference**
- **Arduino - ATmega328 Pin mapping**

System Requirements

System Requirements

- **Arduino UNO Board**

System Requirements

- **Arduino UNO Board**
- **Ubuntu Linux operating system 14.04**

System Requirements

- **Arduino UNO Board**
- **Ubuntu Linux operating system 14.04**
- **Arduino IDE**

External Devices

External Devices

- **Breadboard**

External Devices

- **Breadboard**
- **Arduino UNO Board**

External Devices

- Breadboard
- Arduino UNO Board
- Common anode - Seven Segment Display

External Devices

- Breadboard
- Arduino UNO Board
- Common anode - Seven Segment Display
- 220 ohm Resistor

External Devices

- Breadboard
- Arduino UNO Board
- Common anode - Seven Segment Display
- 220 ohm Resistor
- Decoder (7447 IC)

External Devices

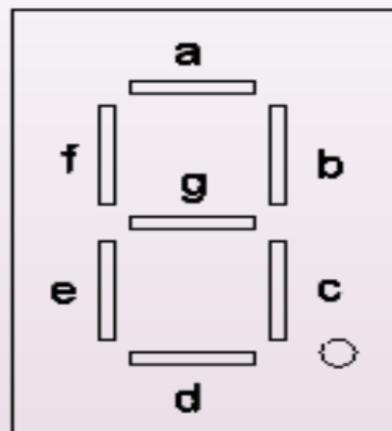

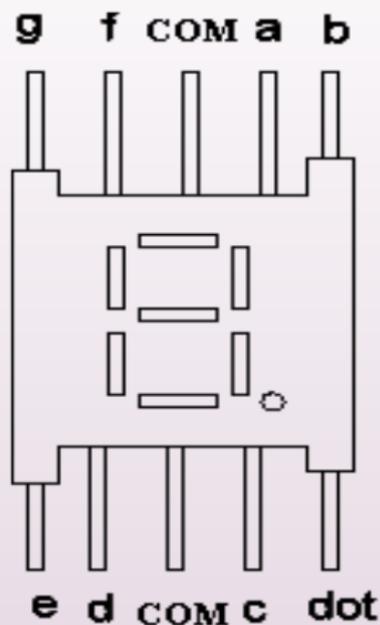

- Breadboard
- Arduino UNO Board
- Common anode - Seven Segment Display
- 220 ohm Resistor
- Decoder (7447 IC)
- Jumper Wires

Seven Segment Display

Seven Segment Display

Seven-Segment Display

Software Setup

Software Setup

We need to install an assembler **AVRA**
and **AVRDUDE**

Software Setup

We need to install an assembler **AVRA** and **AVRDUDE**

- **AVRA** is an assembler that will generate a hex file

Software Setup

We need to install an assembler **AVRA** and **AVRDUDE**

- **AVRA** is an assembler that will generate a hex file
- **AVRDUDE** is used to upload any hex file to the Arduino board

Def files for ATmega328P

Def files for ATmega328P

- Download **m328Pdef.inc** file from the **Code files** link of this tutorial

Def files for ATmega328P

- Download **m328Pdef.inc** file from the **Code files** link of this tutorial
- Include this library file in the first line of the source code

Def files for ATmega328P

- Download [m328Pdef.inc](#) file from the [Code files](#) link of this tutorial
- Include this library file in the first line of the source code
- This allows the user to use Register and Bit name when writing assembly programs

Assignment 1

- **Modify the same code to turn off the dot LED**

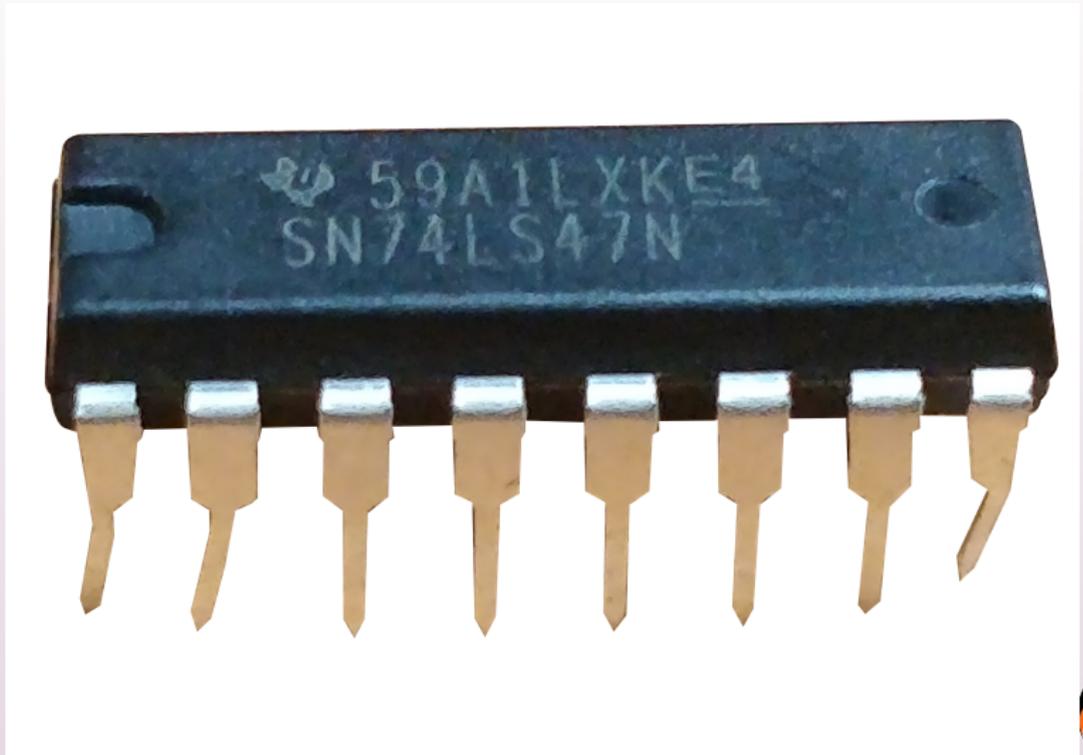

Assignment 2

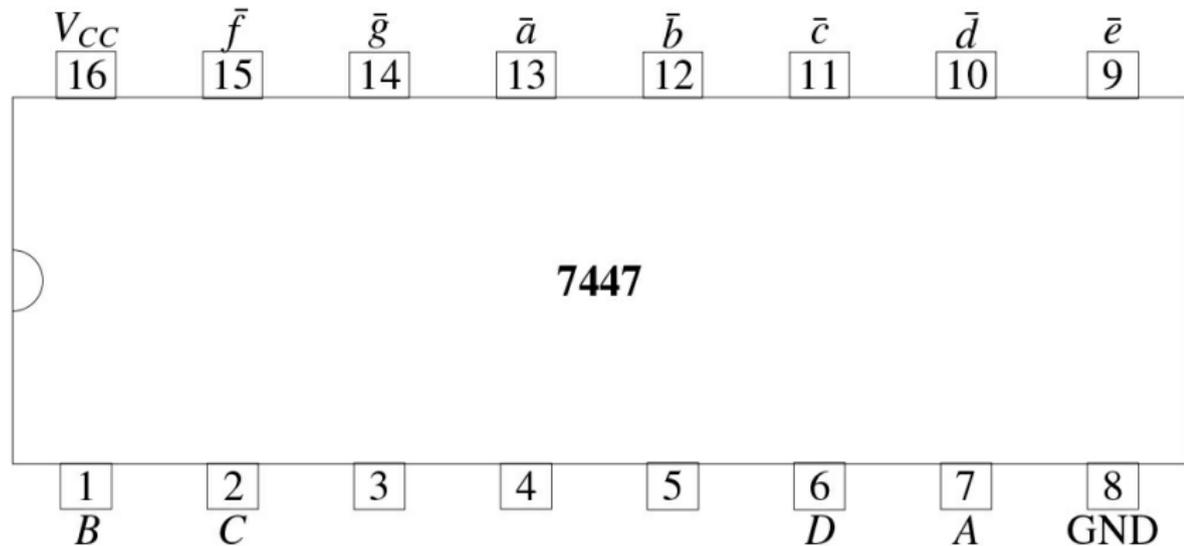

- **Modify the above code to display any other digit from 0 to 9**

Decoder

7447 IC - Pins

Inputs - To display 5

Summary

- **Interface a Seven segment Display to Arduino board**
- **Write an assembly program to display a digit on Seven Segment Display**
- **Display a digit on the Seven Segment Display using 7447 IC**

About the Spoken Tutorial Project

- Watch the video available at http://spoken-tutorial.org/What_is_a_Spoken_Tutorial
- It summarises the Spoken Tutorial project
- If you do not have good bandwidth, you can download and watch it

Spoken Tutorial Workshops

The Spoken Tutorial Project Team

- Conducts workshops using spoken tutorials
- Gives certificates to those who pass an online test
- For more details, please write to contact@spoken-tutorial.org

Forum for specific questions

- Do you have questions in **THIS Spoken Tutorial?**
- Please visit <http://forums.spoken-tutorial.org>
- Choose the minute and second where you have the question
- Explain your question briefly
- Someone from our team will answer them

Acknowledgements

- **Spoken Tutorial Project is a part of the Talk to a Teacher project**
- **It is supported by the National Mission on Education through ICT, MHRD, Government of India**
- **More information on this Mission is available at**
